practice collaboration

**3-CGP entry term**

transdisciplinarity

**3-CGP conceptual content**

**Group Practice**; Any group of three or more full-time physicians organized in a legally recognized entity for the provision of health care services, sharing space, equipment, personnel and records for both patient care and business management, and who have a predetermined arrangement for the distribution of income.(MeSH)

**Physician-Nurse Relations**; The reciprocal interaction of physicians and nurses.(MeSH)

**Independent Practice Associations**; A partnership, corporation, association, or other legal entity that enters into an arrangement for the provision of services with persons who are licensed to practice medicine, osteopathy, and dentistry, and with other care personnel. Under an IPA arrangement, licensed professional persons provide services through the entity in accordance with a mutually accepted compensation arrangement, while retaining their private practices.(MeSH)

**Staff Development**; The process by which the employer promotes staff performance and efficiency consistent with management goals and objectives.(MeSH)

**Patient Care Team**; Care of patients by a multidisciplinary team usually organized under the leadership of a physician; each member of the team has specific responsibilities and the whole team contributes to the care of the patient.(MeSH)

**Patient Handoff**; The transferring of patient care responsibility from one health-care professional to another. (MeSH)
